SKILLS

Programming languages:	R, Julia, Stan, XLSForm
Natural languages:	Italian (Native). English (fluent). Spanish, Portuguese, French (reading)

EXPERIENCE

Fieldwork: Design and management of census and network surveys in rural areas of Benin for my doctoral research work, 2022-2025.

Software development: I authored an R package, [XLSFormulator](#), which automates the creation of XLSForm surveys for offline social network data collection in field settings.

Data management: I currently maintain a relational database developed during my PhD research, with data on a wide variety of domains for up to 700 interviewed individuals (reproductive and marital histories, income and occupation, kinship, household wealth, education, social relationships, experimental games, religiosity).

Data analysis: Experience with Bayesian statistical modeling using R and Stan.
